Weather station JUPITER

Code: **03093**

Price: **€14.61** Net

JUPITER is a weather station with the possibility of measuring the temperature inside the room. It has the following functions: time, date, day of the week, indoor temperature, air humidity, comfort level, weather visualization and alarm clock. The front of the housing is covered with a bamboo layer, which perfectly harmonizes with the minimalistic interior design.
